DSM amends 2021 AGM agenda item

Royal DSM informs shareholders that it has adjusted item 2 'Amendment of the Articles of Association' of the Agenda for the Annual General Meeting of Shareholders to be held on 6 May 2021. Following a dialogue with various shareholders and representatives, DSM has chosen to withdraw one of the proposed amendments of its Articles of Association relating to the creation of an option to organize fully virtual general meetings of shareholders also in the future, if this would be permitted by law.

DSM actively seeks dialogue with stakeholders in preparation of its Annual General Meeting of Shareholders, engaging on Agenda items in more detail. Given the range of views offered during these further discussions, DSM has chosen to withdraw the aforementioned amendment relating to fully virtual shareholder meetings. DSM will continue the dialogue and await further legislative developments before determining the most appropriate way forward for all stakeholders.

The full text of the Agenda and the Notes to the Agenda is available on www.dsm.com.
